**New Season. New Kit. Big Savings.**

Spend **£2000** on Mitre Teamwear and get **£200** of kit or footballs for free.  
See inside for more details.

MITRE UNITED

# New Season. New Kit. Big Savings.

Spend **£2000** on Mitre Teamwear and get **£200** of kit or footballs for free.

It's simple to join the Mitre United scheme and get **£200** of free kit for your club.

Here's how it works:

**1 Sign Up**  
For the scheme at your local retailer

**2 You're Welcome**  
Get a free gift and regular statements from Mitre

**3 Start Shopping**  
Spend **£2000** and choose free products up to **£200** RRP

**4 Great Save**  
Collect the free kit, wear it and play!

**MITRE UNITED**

—  
*great saves*

# TECHNOLOGIES

**REVOLUTIONARY INNOVATION – ENGINEERED BY MITRE**

## **HYPERSEAM**

*With the accuracy, speed and power of a stitched football, and the control and consistency of a bonded football, Mitre's innovative Hyperseam technology delivers a ball that plays better, lasts longer, and moves faster. Hyperseam. In-play consistency. Low maintenance. High durability.*

## **PROFLOW**

*Delivering unrivalled moisture control. Our ProFlow apparel range are crafted using breathable performance fabric designed to wick sweat away from the body. Helping you keep dry and comfortable in high intensity situations.*

**PROFLOW**  
MOISTURE CONTROL

## **12 PANEL**

*Maximum accuracy, without sacrificing speed or power – that's what our 12 panel construction delivers. Our unique 12 panel design remains stable at high speeds with superior aerodynamic control, helping you strike the ball straight into the top corner.*

**PROSHIELD**

*Protection in all-weathers. Performance fabric helping to shield you from the elements. Designed to keep you warm and dry in the toughest training conditions. A collaborative innovation with leading outdoor sports brand Berghaus.*

**PROSHIELD**  
ALL-WEATHER PROTECTION

**COMPRESSION**

*Intelligent compression – reduces muscle fatigue during exercise and build-up of lactic acid. Unique material boosts performance through enhanced circulation and increases oxygen flow.*

**AIRCELL**

*AirCell is a totally breathable, ultra lightweight guard technology. Designed for use at all levels of the game, it keeps the leg cool, while also delivering the protection you need. Professional quality. Total breathability.*

BOOST PERFORMANCE, SPEED UP RECOVERY

## COMPRESSION TOP

Available in	Chest Size	Suggested Retail Price
<b>Youth (VAT Free)</b>		<b>£20.00</b>
LY	30/32"	
XS	32/34"	
<b>Adult</b>		<b>£24.00</b>
S	34/36"	
M	38/40"	
L	42/44"	
XL	46/48"	
XXL	50/52"	

- » Compression base layer jersey helps boost performance on the pitch and accelerate recovery off it
- » Strong poly-elastane boosts circulation, reducing lactic acid build-up
- » Mesh ventilation keeps the body cool and comfortable
- » Flatlock seams minimise skin abrasion for a closer, flexible fit – so players can train to the max

# FOOTBALLS

# REVOLUTIONARY INNOVATION ENGINEERED BY MITRE

In some ways, the world's beautiful game has changed radically in the last decade. There's more glamour. More professionalism. Yet, at its heart, it's still pretty much the same: one pitch, a pair of goals and two teams competing on the basis of skill and desire.

Real Football is still played every day on muddy pitches, sun-drenched parks and school playgrounds around the world – this is where the true spirit of the game is found.

And this is where you'll find Mitre, the world's original football brand.

## HYPERSEAM

Imagine the powerful, accurate, speedy performance of a stitched ball, combined with the sturdy, consistent feel of a bonded ball. Mitre delivers this by fusing both construction methods into one. Hyperseam's panels are joined together with high-tension machine stitches and Polyurethane sealed seams. The result is a ball that plays better, lasts longer, and moves faster.

- » Highly accurate. Reduced resonance when striking for better in-flight accuracy
- » Easy control. 5mm foam backing for increased contact time on impact
- » Fast and powerful. Increased outer tension to increase speed off the foot
- » Water repellent. Fully sealed seam ensuring almost zero water uptake
- » Consistent feel and performance. Touch and shape stays the same in all temperature conditions
- » Air retaining. Butyl bladder requires less re-inflation than a latex bladder
- » Shape retaining. Engineered to guarantee consistent size and shape retention

### **12 PANEL CONSTRUCTION**

Patented 12 panel technology delivers maximum accuracy – without sacrificing speed or power. Identical panel construction ensures optimum aerodynamic control and stability at the highest speeds.

### **RUBBER PLY**

Interceding rubber layer separates foam lining to boost strike power transferred from boot to ball – resulting in exceptional speed and performance.

### **SURFACE**

Unique textured surface is engineered to deliver a pure in-flight path, increased grip and ultimate control.

### **THE OUTER MATERIAL**

Versatile microfibre synthetic-leather outer provides consistency throughout the whole season – with every kick. The tough material resists abrasion and remains sturdy.

### **HYPERFOAM**

Crafted with dual Hyperfoam lining – ensuring maximum power in every strike. A soft-feel and cushioned touch increases player control and confidence on the ball – without compromising power.

### **THE BLADDER**

Laminated butyl synthetic bladder is designed to deliver rapid speed, intense power and increased bounce – whilst keeping ball shape throughout intense matches.

# FOOTBALL LEVELS

## PROFESSIONAL

Unrivalled performance. Our professional footballs are engineered with revolutionary innovation – designed to maximise a player's skill and playing ability. Using patented constructions and the highest quality materials the range offers rapid speed, pin-point accuracy and ultimate control. They're the perfect choice for ambitious clubs and serious players.

### KEY BENEFITS

CONTROL

ACCURACY

POWER

### EXAMPLE FOOTBALLS

Delta Hyperseam (pg. 110)

Promax Hyperseam (pg. 110)

Max Hyperseam (pg. 110)

## MATCH

A season-long performer. Our match footballs are developed to deliver optimum in-play consistency and performance over the season. Using innovative Hyperseam technology the range gives superior accuracy, power and performance to a training ball – as well as delivering lively match-play. They're the perfect choice for grassroots clubs wanting a quality ball for game day.

### KEY BENEFITS

CONTROL

ACCURACY

POWER

## TRAINING

Part of the squad. Our training footballs are crafted with durability in mind – and that's why they'll become one of the team. Engineered to be used for extensive periods of time, using shape-retaining panelling and abrasion resistant outer material. Features differ within training balls with soft-touch and light-weight balls helping inspire player confidence, and Hyperseam balls giving higher performance. They're the perfect choice for clubs training on a weekly basis and individual players looking to improve their game.

# SHINGUARD TESTING

ALL EUROPEAN GUARDS REQUIRE THE EUROPEAN CONFORMITY MARK

Football is a contact sport and as such presents a number of hazards that cause injury. Shinguards cannot always prevent serious injury but are designed and developed to reduce the severity of abrasions and bruises to the player's shin.

In Europe, shinguards that claim to offer protection to the player are considered to be intermediate category personal protective equipment and as such shinguards must be tested and CE marked; shinguards are tested against the BS EN 13061:2009 Standard. This standard assesses the shinguards for a range of properties, including impact resistance, comfort and ergonomic fit.

The CE mark can be found on all Mitre shinguard labels, as well as the user information and product care leaflet.

**VALVE BLADDER NEEDLES**

Suggested Retail Price  
**£13.50**

- » Essential replacement needle with integrated valve
- » Suitable for our electric and stirrup pumps
- » Packs of 10 (one needle per pack)
- » Always use with Mitre Glycerine for optimum ball care

Pack Size  
**10**

**A3013 AA0**  
Silver

**BALL PRESSURE GAUGE**

Suggested Retail Price  
**£10.50**

- » An accurate ball pressure gauge – correct PSI is crucial for optimum ball performance at all levels of the game
- » Air release button lets off excess air from overinflated balls
- » Measures ball pressure in bar and PSI

Pack Size  
**1**

**A3014 BCG**  
Black

# CUSTOMISATION

# PERSONALISED APPAREL

## LETTERS & NUMBERS

We offer a state of the art customisation facility that allows you to personalise your purchase by adding numbers, sponsors and club badges to your kits, bags, bibs, gloves and footballs.

With heat seal printing and embroidery options available, as well as standard fonts to choose from, we can service almost all your customisation requirements, no matter how simple or complex.

## BADGES & SPONSORS

Even if your club doesn't have its own club crest, you can choose one of our three standard badges shown below.

If you require a bespoke sponsor print, you can choose one of our 3 standard typefaces below to print onto your shirt. There will be no set up charge, and the lettering will be stretched to the maximum 32 sq inches/200 sq cm permitted by the F.A. unless otherwise specified.

## PRINT APPLICATION

When applying different badges and sponsors onto our products, we use a selection of application methods, chosen on complexity of art, or specification.

### STRETCH PRINT

Highly recommended for most garments and bags. Unbeatable value and performance. Durable prints giving a quality matt finish.

Available in one colour.

### DIRECT PRINT

High definition finish for teamwear and trainingwear. Ideal for intricate sponsor designs and where Pantone shades need to be matched.

Available in up to five colours.

### EMBROIDERY

We are happy to quote for your requirements whether you have an existing tape/disk for your badge or require your own design.

Colours available on request.

## LOGO SIZE

We print logos to the Football Association recommended size. However in some cases where the style of the logo is too wide it may not be possible to print to the maximum size allowed. It may also not be possible to print full sized logos on smaller sizes of jerseys 24/26 to 30/32.

## YOUR ARTWORK

When applying your bespoke artwork to your kit, the quality and type of artwork supplied will affect the accuracy of the reproduction and the speed of processing your order. When sending us your artwork please ensure it is saved in a layered vector format in a computer design package, ideally Adobe Illustrator.

Unless supplied in vector, EPS or PDF format, artwork may be required to be redrawn to ensure no loss of resolution when resizing for your order. For artwork supplied in the advised format, in AI, EPS or PDF, we do not apply an artwork charge. If artwork is supplied in a flattened or raster format such as JPG, BMP, TIF, an hourly artwork fee will be charged for turning the supplied artwork into a usable design.

# CUSTOMISED FOOTBALLS

We now have the capability to print on most of our footballs in one colour only. We can do a name or simplified badge for your football club. We would need to see the design prior to accepting the order. The 32 panel is the preferred size for this type of construction.

## 1. CHOOSE A CUSTOMISABLE FOOTBALL

Selected Mitre footballs can be printed with either your logo and text or just text.

<b>LOGO / TEXT</b> Printed below the Mitre logo. Max. 5cm		<b>TEXT ONLY</b> Printed down the side of the ball. Max. 7-8cm			
					
IMPEL	CALCIO HS	ULTIMATCH HS	DELTA MATCH HS	DELTA HS	PROMAX HS

Heat Printed using our Special Made Ball Printer. Not to be used on Concrete.

## 2. YOUR LOGO

For optimum results your logo should be a flat simplified shape (no gradients or intricate lines), in one colour, supplied as a vector file. For artwork supplied flattened or raster format, such as JPG, BMP, TIF, an artwork fee will be charged for turning the supplied artwork into a usable design.

The example to the right shows how a logo may need to be simplified.

## 3. CHOOSE LOGO AND / OR TYPEFACE COLOUR

COLOUR OPTIONS

TYPEFACE

## 4. CHOOSE A QUANTITY

PRICE PER FOOTBALL:

1-5 Balls	<b>£2.75</b>	30-99 Balls	<b>£2.25</b>	Logo Re-draw	<b>£15.00</b>
6-29 Balls	<b>£2.50</b>	100+ Balls	<b>£2.00</b>		

# PRODUCT CARE INSTRUCTIONS

## GARMENTS

Our garments are made using high quality materials under strict quality control conditions. It should be noted that most fabrics discolour due to staining by substances such as mud and grass which may not be entirely removed by washing. We recommend removing as much mud from the garment as possible before soaking/washing.

Follow detergent manufacturers' instructions particularly with powders/liquids designed for heavy stains. Avoid products containing chlorine bleach that may damage fabrics, trims and decoratives.

Soaking garments in water and detergent as soon as possible can reduce discolouration. Use at least an equal amount of water by volume to that of the garments being soaked/washed. Make sure all parts are fully immersed. Pale garments such as White, Yellow, Sky and Tangerine may require more attention and the use of pre-wash soakers will assist in the removal of stains.

Do not overfill the washing machine with garments since if the ratio of water to garments is too small, dirt can easily be re-deposited. This can stain all the garments grey.

We do not recommend fabric conditioners on jerseys and shorts which may cause a build up of film on fibres. This can prevent the washing process from penetrating filaments and dislodging dirt. However, socks will benefit from fabric conditioners and softeners.

Mitre will not accept liability for discolouration or damage to garments which is attributable to staining caused by elements foreign to the materials used in manufacture.

## SHINGUARDS

Mitre shinguards should be wiped clean using lukewarm water and be allowed to dry naturally at room temperature. In order to prevent damage to the shinguard, do not place on hot surfaces such as radiators.

## GOALKEEPER GLOVES

The latex rubber used to manufacture Mitre gloves is of the finest quality giving optimum performance in both wet and dry conditions. Please take great care as due to the soft nature of the material, we cannot guarantee protection against high and sustained abrasion.

To ensure the best grip, latex should be washed in warm water prior to first use. Never use detergents or soaps and never use water above 30°C.

All latex palms should be moistened with clean, warm water before each use.

Hang gloves individually. Do not dry gloves in direct heat or near radiators.

## FOOTBALLS

Care should be taken when inserting the inflation needle into the ball to prevent damaging the valve and bladder. Mitre Glycerine should be used to allow the needle to be inserted smoothly. This is particularly important on the initial inflation as the wall of the bladder can be punctured if the needle is pushed too far before the air is pumped in.

The amount of pressure in the ball will significantly affect the performance and durability of the ball. Pressure should be checked regularly as not only do balls gradually lose air through the wall of the bladder, but temperature can also alter the pressure by 1 psi for every 10°C.

The recommended pressure is printed on the ball and this should be checked regularly using a Mitre pressure gauge. Do not exceed the recommended pressure, this may damage the ball and its performance.

If the ball gets wet during play, it should be dried in an airy place and not force dried with heat as this will damage the ball.

# SIZE CHART

## APPAREL

Apparel Size      Chest Size      Waist Size

### Youth (VAT Free)

Apparel Size	Chest Size	Waist Size	UK Sock Size	Age Recommendation (Years)
XSY	24/26"	20/22"	Infant	9-11
SY	26/28"	22/24"	Mini	12-2
MY	28/30"	24/26"	Junior	3-6
LY	30/32"	26/28"	Senior	7-12

### Adult

Apparel Size	Chest Size	Waist Size
XS	32/34"	28/30"
S	34/36"	30/32"
M	38/40"	32/34"
L	42/44"	36/38"
XL	46/48"	40"
XXL	50/52"	42"

## SOCKS

UK Sock Size

## CHOOSE THE RIGHT SIZE

### Tops

If your height suggests a different size to your chest measurement it is better to follow the chest measurement for the best fit.

If your body measurements fall between two sizes you could order the lower size if you prefer a tighter fit, or the higher size for a looser fit.

### Chest

Measure around the fullest area of the chest with a flexible tape measure, holding the tape measure horizontal

### Waist

Measure around the narrowest part of the waist, keeping the tape measure horizontal.

## GUARDS

Guard Size	Height Recommendation (foot)
XS	Under 3.9ft

# BALL USAGE & SUITABILITY

## BALL CARE AND PRESSURE

Care should be taken when inserting the inflation needle into the ball to prevent damaging the valve and bladder.

Mitre Glycerine should be used to allow the needle to be inserted smoothly. This is particularly important on initial inflation as the wall of the bladder can be punctured if the needle is pushed in too far before any air is pumped in.

The amount of pressure in a ball will significantly affect the performance and durability of the ball. Pressure should be checked regularly as not only do balls gradually lose air through the wall of the bladder, but temperature can also alter the pressure by 1 psi for every 10°C.

The recommended pressure is printed on the ball and this should be checked regularly with a Mitre pressure gauge.

If the ball gets wet during play, it should be dried in an airy place and not force dried with heat as this may damage the ball.

## BALL QUALITY AND SUSTAINABILITY

### Professional

Designed to deliver performance and manufactured to highest and tightest specification. Developed with professional clubs throughout Europe, Mitre professional footballs deliver the ultimate in power, accuracy, consistency and control.

### Match

Mitre match balls are designed for all ages to perform at the highest levels of the game week after week. That's why Mitre balls are used by more amateur clubs than any other brand. So whether you're a semi pro or a junior player, Mitre has a match ball to suit your game.

### Training

Developed to perform for hour after hour of rigorous training, Mitre training balls provide great playing characteristics with long-lasting durability and reliability.

### Recreational

For the stars of the future, ideal for a kick-about in the park or a game of heads and volleys and other skills practice. Mitre recreational balls are specifically designed for fun and leisure. Check icon on ball for specific surface and weather usage.

## DIFFERENT SURFACES

### Astro Turf

There are many different types of Astro turf, from the pure synthetic fibre to filled fibre where fillings can vary from sand to ground rubber. All have one thing in common: they react with the ball like hard ground, increasing the bounce. Also many have much less drag/grip on the ball than natural turf. Because of this we normally recommend reduced ball pressure to 7-9 psi to slow down the ball and grain finish material to increase the drag.

A part worn shiny ball also gives this effect. Many artificial pitches are surrounded by fences and walls which can easily damage the ball so we highly recommend more economic balls to reduce the cost of replacing damaged balls.

### Synthetic Surfaces

Asphalt and treated concrete. Not all synthetic surfaces are Astro turf. On most, abrasion is the main problem and we have a range of economic training balls and high abrasion-resistant match balls which will cope with these surfaces.

### Sports Hall

Wooden tiles, carpet and indoor pitches. All are dry so water absorption is not a problem, but the abrasiveness varies widely so it is important to consider this before recommending any particular ball. Some games have special requirements such as low or reduced rebound and Mitre has reduced rebound balls for Futsal, indoor and Futebol de Salão.

### Natural Turf

Natural turf pitches vary enormously in different countries, different seasons and different levels of play. As well as performance level we need to consider abrasion, water absorption and required use before recommending balls for natural turf. If the ball is to be used for training only, then economy and durability are most important; if to be used for a match or match practice, then performance is more important.

## BALL SIZE RECOMMENDATIONS

MINI	SIZE 2 / MIDI	SIZE 3	SIZE 4	SIZE 5
